(d) Power: (1) Horsepower developed. (2) Point of return of water to stream. 5. The water is to be diverted from its source at the following point: MDB&M or at a point from which Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,	
2. The amount of water applied for is	
2. The amount of water applied for is	
2. The amount of water applied for is	
(a) If stored in reservoir give number of acre-feet	
3. The water to be used for. MINING, MILLING & DOMESTIC Irrigation, power, mining, manufacturing, domestic, or other use. 4. If use is for: (a) Irrigation (state number of acres to be irrigated) (b) Stockwater (state number and kinds of animals to be watered) (c) Other use (describe fully under "No. 11. Remarks"). (d) Power: (1) Horsepower developed. (2) Point of return of water to stream. 5. The water is to be diverted from its source at the following point: MDB&M or at a point from which Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,	
 4. If use is for: (a) Irrigation (state number of acres to be irrigated) (b) Stockwater (state number and kinds of animals to be watered) (c) Other use (describe fully under "No. 11. Remarks") (d) Power: (1) Horsepower developed (2) Point of return of water to stream 5. The water is to be diverted from its source at the following point: SW¹/₄ NE¹/₄ Sec. 25, T45N, R25E, MDB&M or at a point from which Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land, 	
(a) Irrigation (state number of acres to be irrigated) (b) Stockwater (state number and kinds of animals to be watered) (c) Other use (describe fully under "No. 11. Remarks") (d) Power: (1) Horsepower developed (2) Point of return of water to stream (3) The water is to be diverted from its source at the following point: (4) Sec. 25, T45N, R25E, MDB&M or at a point from which Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,	
(b) Stockwater (state number and kinds of animals to be watered) (c) Other use (describe fully under "No. 11. Remarks"). (d) Power: (1) Horsepower developed	
(c) Other use (describe fully under "No. 11. Remarks")	
(d) Power: (1) Horsepower developed	
(1) Horsepower developed	
(2) Point of return of water to stream SW NE Sec. 25, T45N, R25E, The water is to be diverted from its source at the following point: MDB&M or at a point from which Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,	
(2) Point of return of water to stream SW NE Sec. 25, T45N, R25E, The water is to be diverted from its source at the following point: MDB&M or at a point from which Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,	
5. The water is to be diverted from its source at the following point: MDB&M or at a point from which Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,	
MDB&M or at a point from which Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,	
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,	
the CD compan of Coc 26 MAENT DOED MODEM became a 10000146 PD	
the SE corner of Sec. 36 T45N, R25E, MDB&M bears S.12°03'46"E,	
6. Place of use	
SW NE Sec. 25, T45N, R25E, MDB&M	
7. Use will begin about Jan. 1 and end about Dec. 31 of each year. Month Month	
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and	
specifications of your diversion or storage works.) Pipe and storage tank.	
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.	
1	

9. Estimated cost of works. \$500	
10. Estimated time required to construct works. 2 years	
11. Remarks
